

# ***THE POWERWAGON***

## **GASLESS GENERATOR**

## **NEW** – Introducing the POWERWAGON:

A gasless, environmentally friendly, renewable power generation system- on wheels.

### ***A NEW WAY TO POWER YOUR LIFE!***

The POWERWAGON takes battery-inverted, power-on-demand, generators to a whole new level. The gasless generator is mounted on a rugged, heavy-duty 2-wheel trailer, which acts as the integrated primary charging mechanism. Just hook up the POWERWAGON system to your vehicle, and it charges as you drive. The POWERWAGON 5000 watt power system can provide enough electricity to power a construction site, energy back-up for a home, supply for recreational or special event needs- all with no emissions, no noise, and no requirements for fuel or oil storage. The POWERWAGON is *the* answer to your temporary off-grid energy needs.

## Excellent Source of Power For:

- Mobile Emergency power
- Residential/Cabin Back-up Power
- Recreational Camping, Hunting, 4-Wheeling
- Tailgating
- Outdoor Festivals or Special Events
- Job Sites
- Government and Military Operations
- Farming Power Needs
- Virtually Any Remote Temporary Power Needs

## Features:

- Quiet, silent operation
- Portable/Mobile
- Convenient and Easy to Use
- Instant Power-on-Demand
- Zero Harmful Emissions While in Use, Reduces Carbon Footprint
- Safe for You and the Environment
- Provides Renewable Energy
- No Oil Changes or Fuel Storage
- Pays for Itself Quickly
- Versatile Trailer Provides Additional Storage Space for Tools, etc.
- Zero Power Fluctuations
- Easily Customized to Meet Additional Power Requirements
- Alternative Charging Sources include Wind, Solar, 110 AC, etc.
- Green Energy Tax Rebate May Apply

## POWERWAGON 5000W Model:

- Durable Full Steel Frame with Heavy Duty Train and Hitch
- SEC Diamond Plate Aluminum Battery and Storage Boxes
- 225/75 D15 8 Ply Trailer Tires
- 4 External Convenience 20 Amp Outlets
- Connection for Alternative Charging Options
- 4-420AH Industry-Grade Deep Cycle Batteries with 5 to 10 Year Life
- Meets and Exceeds all Environmental Laws: Meets EPA Standards
- 5000 Watts Continuous, 10000 Watts Peak
- 42 Continuous Amps/84 Amps Peak
- Volt Meter & Amp Meter
- 1 Year Bumper-to-Bumper Warranty
- No Carbon Emissions
- AC Rated Output - 5KW/5000W
- AC Max Output - 10KW/10000W
- AC Voltage - 120V/120V
- AC Frequency - 60Hz.
- DC voltage - 24V
- Weights 1200- 1300lbs.
- Size 4x6ft. Trailer with Overall Unit Dimensions: 8'1" L, 6'4" W, 3'6" H
